- Touchscreen

NA 3448 GIANT COMBI

FOR A GIANT PERFORMANCE

The powerful Nissei NA 3448 Giant Combi guarantees the production of large quantities of ice cream and milkshakes over a short period of time.

This foot-operated machine is very user-friendly because of its two separate dispensing tap nozzles. One for ice cream and one for four different flavours of milkshake. The big freezing cylinder ensures perfect air storage and delicious creamy ice cream and milkshakes. Result? Happy customers and a high profit.

With the optional twister spoon and the Huzzle function it is possible to surprise customers with the most diverse creations. This makes the machine not only easy to operate, but also hugely versatile.
